Safety Instructions

The projector is designed and tested to meet the latest standards for safety of information technology equipment. However, to ensure safe use of this product, it is important that you follow the instructions mentioned in this manual and marked on the product.

WARNING This symbol indicates information that, if ignored, could possibly result in personal injury or even death.

CAUTION This symbol indicates information that, if ignored, could result in personal injury or physical damage.

Typical Symbols

This symbol indicates an additional warning (including cautions). An illustration is provided to clarify the contents (for example: the illustration to the left indicates danger of electrical shock).

This symbol indicates a prohibited action. The contents will be clearly indicated in an illustration or description near the symbol (for example: the symbol to the left indicates that disassembly is prohibited).

This symbol indicates a compulsory action. The contents will be clearly indicated in an illustration or description near the symbol (for example: the symbol to the left shows that the power plug should be disconnected from the power outlet).

Safety Labels

⚠ WARNING

If a problem should occur

If smoke or strange odors arise, continued use could result in fire or electrical shock. In such case, immediately turn off the power switch and then disconnect the power plug from the power outlet. After making sure that the smoke or odor has stopped, contact your dealer for repairs. Never attempt to make repairs yourself because this is dangerous.

Do not use this projector if there is no image or sound, or if the sound is distorted. Continued use could result in fire or electrical shock. In such case, immediately turn off the power switch; disconnect the power plug from the power outlet and contact your dealer.

If water would enter the inside of this projector, immediately turn off the power switch, disconnect the power plug from the power outlet and contact your dealer.

Do not install on an unstable surface.

Do not install this projector on an unstable surface such as a wobbly stand or incline because this could result in the projector falling and causing injury.

Do not open the cabinet.

Never open the cabinet. There is high voltage inside which can cause electrical shock. Contact your dealer for internal inspection, adjustment and repair.

Do not modify.

Do not modify this projector because this could result in fire or electrical shock.

NO SIDEWARD

Do not place the projector upon either side to project an image.

Do not use in the bathroom or near water site.

Do not expose this unit to rain or use near water… for example, in the bathroom, a wet basement, near a swimming pool, etc…

Do not insert objects into the Projector.

Do not insert metal objects through the ventilation openings, etc., of this projector or drop such objects inside because this could result in fire or electrical shock.

If a foreign object should enter this projector, immediately turn off the power switch, disconnect the power plug from the power outlet and contact your dealer.

Continued use could result in fire or electrical shock. Use special caution in household and where children are present.

Safety Labels

WARNING

Do not look through the lens when the lamp is on.
Never look through the lens when the lamp is on. The powerful light could adversely affect vision. Use special caution in households where children are present.

Avoid shock or impact on the projector.
If the projector should fall, resulting in damage to the cabinet, immediately turn off the power switch, disconnect the power plug from the power outlet and contact your dealer.
Continued use could result in fire or electrical shock.

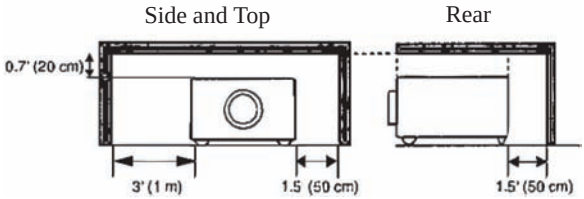
Do not place this projector in a container containing liquid. Do not place flower vases, flowerpots, cups, cosmetics, liquids such as water, etc., on top of this projector.

Do not use any power cable except those supplied with the projector.
The use of any other power cable could result in fire or electrical shock.

Do not shine the laser beam onto yourself or other.
The laser pointer function of projector remote control emits class II laser beam.
Do not look directly into the laser beam outlet or direct the laser beam at other people.
Vision can be impaired if the laser beam enters the eyes. Especially pay attention if children are present.

High temperatures are generated when the lamp is lit; so do not place objects in front of the lens.

Allowing the proper amount of space on the top, sides, and rear of the projector cabinet is critical for proper air circulation and cooling of the unit.
The dimension shown here indicate the minimum space required. If the projector is to be built into a compartment or similarly enclosed, these minimum distances must be maintained.



Safety Labels

⚠ CAUTION

Placing heavy objects on top of this projector could result in loss of balance or falling and cause personal injury or damage the projector.

Do not block the ventilation openings of this projector.
Blocking ventilation could lead to internal overheating which could result in fire.

Do not place this projector on its side during use or push it into a small, poorly ventilated location.

Do not place this projector on a carpet or bedding or cover it with a tablecloth, etc.

Care and maintenance.
For safety purposes, disconnect the power plug from the power outlet before starting the care and maintenance of this projector.

Battery usage.
Replace the batteries with the same type only.
Do not mix old and new batteries; this could result in fire or personal injury due to battery cracking or leakage.

Make sure the plus and minus terminals are correctly aligned when loading the batteries.
Incorrect loading could result in personal injury or contamination of the surroundings due to battery cracking or leakage.

Have the projector interior cleaned regularly.

Contact your dealer to arrange for the service.
Accumulations of dust inside the projector can result in fire or malfunction if not cleaned for an extended period.
Ask your dealer for details about internal cleaning.

Safety Labels

Safety labels are used on or within the projector to alert you to items or areas requiring your attention.

SSID (Service Set Identification) : The same name of SSID must be assigned to wireless devices in your network. Considering your wireless network security, the default SSID is set to be “rtwap”.

Security : you can configure the security settings of your wireless network.

There are three wireless security modes supported by the Router : Open, WPA2 and WPA.

Open – it means no security settings of this wireless network. The default setting is automatic that based on the wireless station's capability and request.

WPA(default) and WPA2 – It’s the WPA/WPA2 authentication type.

PSK (Pass-Key) : You can enter a key-code.

Channel : This field determines which operating frequency will be used. It is not necessary to change the wireless channel unless you notice interference problems with another nearby access point.

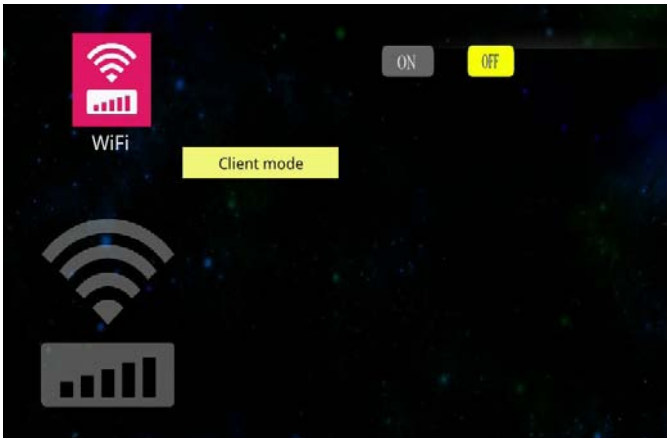
Auto : The default setting is automatic, which can adjust the channel width for your clients automatically.

V : Press the ENTER button to enable AP mode, and then press the ESC button on the remote control to quit AP mode setting page.

X : Abort the setting, or you can press the ESC button on the remote control to quit setting.

Client mode :

When wireless clients survey the local area for wireless networks to associate with, they will detect the SSID broadcast by the Router. The SSID of the AP your Router is going to connect to as a client.



Select the ON button and press ENTER button on the remote control for starting Client mode.

Press the ▼ button on the remote control to go to the items of SSID. The visual keyboard will pop-up on the screen if select a SSID name and ask you PSK(pass-key) for connecting. Filter

Keep the air filters clean by cleaning them periodically.
By using Filter Counter the projector can remind you of the timing.
There is black sponge attached just back side of the filter cover consists of a black frame.

How to clean or replace the filters

Turn off the projector, and unplug the power cord. Wait to allow the projector to cool down sufficiently.

1. Push up 2 white stoppers of the Filter cover and remove it from the side of projector as shown below.
2. Remove the spong case from the projector by pull it front the right hand side.
3. Clean the filters with a vacuum cleaner except for the back side of the sponge, because the vacuum cleaner may suck it. Brush the sponge gently by a brush. (Do not clean the filters with water.)

4. Insert the filter parts to the side of the projector first and then close the Filter cover by pushing 2 white stoppers. Make sure that the Filter cover is well closed.

6. Reset the Filter Timer.(P.75)

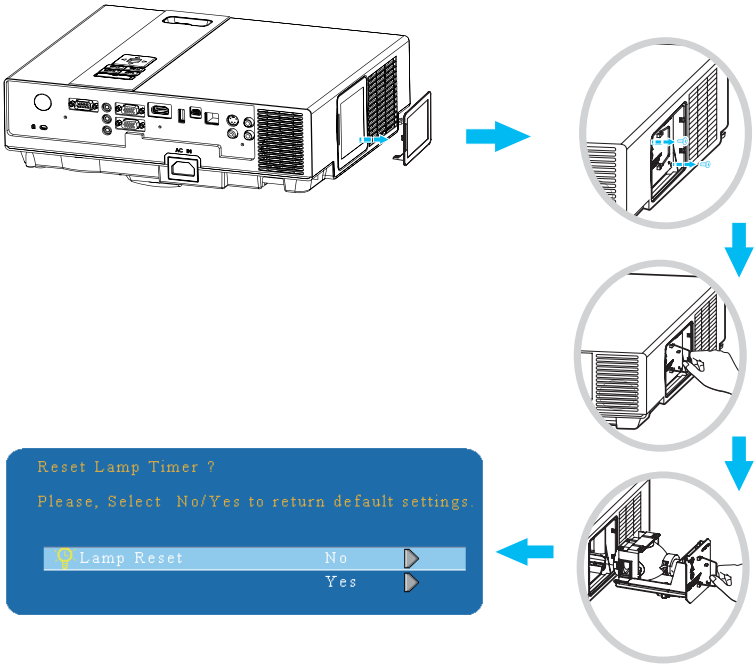
1. Remove the lamp door.
2. Loosen 2 screws of the lamp holder. Hold the handle on the top of the lamp, pull out the lamp straight off the projector.
3. Insert new lamp, lock the lamp door firmly with 2 screws.
4. Put the lamp door on.
5. Please reset the lamp timer after replacing lamp. (P.71)

When changing lamp, it is recommended that you change the filer at the same time.



WARNING

The projector uses a high-pressure mercury lamp.
The explosion of lamp with a loud bang or burn out could possibly cause injury or a fire. When the bulb burst, it is possible for shards of glass to fly into the lamp housing; and for gas containing mercury to escape from the projector's vent holes.
If the lamp has broken, do not check the inside of the projector. Please ventilate the room immediately.
Do not touch or bring your face close to the broken pieces since it might get into your eyes or mouth. In case of injury, seek medical advice immediately.

Disposal of a Lamp

Dispose of a lamp in accordance with the local recycling laws.
Do not put it to your trash.
Recycling Lamp's laws of the USA, go to www.lamprecycle.org.
Recycling Product's laws of USA, go to www.eiae.org.
Recycling Product's laws of Canada, go to www.epsc.ca.
For more information about recycling laws, please contact local government agency or dealer.

CAUTION HOT

Before replacing the Lamp part, pay attention to the following items:
1.The Lamp is optional part. Contact the dealer for replacement lamp.
2.The lamp becomes very hot when in use. Turn the power off and disconnect the power cord.
3.Wait 1 Hour before replacing the lamp.
4. Do not use old lamp part.

Additional

-In order to ensure the safe use of your projector, please contact your dealer to inspect about once a year.

-Before maintenance, make sure the power cable is unplugged, allow the projector to cool sufficiently. The high temperature state of the projector could cause a burn in and/or malfunction to the projector.

-Never try to maintain the inside of the projector by yourself.
